

Deerpark Hazard Mitigation Plan Team

Meeting Minutes: 9/10/09

7:00PM

Attendees:

Joyce Cirulli	Town of Deerpark Emergency Mgt
John Flynn	Town of Deerpark Emergency Mgt
Chris Parliman	Cuddebackville FD
Gary Flieger	Town Supervisor
Ed Hughson	Town of Deerpark Highway Superintendent
Dominick Greene	Orange Co Hazard Mitigation
Fredrick Ladika	Regional EMS
Gary Spears	Town of Deerpark Town Council
Sue Murphy	Resident
Bill Werner	Town of Deerpark Police Department
Gene Lucchese	NY SEMO
Glenn Gidaly	Barton & Loguidice

Glenn introduced this as the first Public Information Session that will be held on the development of the Plan. Notice of this meeting was placed in local newspapers and was on the Town web site.

Glenn presented a Power Point that outlined the following; the background on Hazard Mitigation Plans, the process the Town will be using to develop the Plan, detail on work that has already been completed, an overview of the Hazard Analysis that was completed with SEMO, and information on work tasks that remain to be completed.

Gene reminded the group that Hazard Mitigation Plans are not static. The Plans are designed to be, and must be, updated in a 5 year cycle. There may be funds available in the future to assist in accomplishing these updates.

Dominick wanted to know which mitigation measures we would be looking at to include in the Plan. He mentioned that the re-location of targeted homes might be needed.

There was discussion concerning the Myers Grove area and a culvert that is needed near a campground by the Gumar Turnpike.

Dominick mentioned that there are new Federal regulations that require all Plans to be inter-connected. As such, we need to pay attention to the Orange Co Plan and the Port Jervis Plan.

9/10/09

There was discussion concerning county-owned roads that lie within the Town of Deerpark. In particular, the Rte 42 Bridge is in poor shape.

Sue Murphy stated that she has photos from previous flood events and would be willing to share them.

Next mtg is set for: 10/07 at 7PM
