No motion on the Resolution regarding Deficit Financing and the Serial Bonds

Gary Flieger: I went to the Western Supervisor's Meeting, it has to do with the Supervisor's in the western section of Orange County, we sat down and talked about many different things, one of the things we talked about was the revaluation and we're all in agreement that it has to be done, some of the other towns are even farther behind than we are. You can't do it now, we probably won't be able to do it for a couple of years, it has nothing to do with the Town of Deerpark having money, it has to do with the way the market is and it's just not stable right now, and with it not stable what happens is you actually will be leaning towards favoritism to whichever end of the market is weak, right now the larger homes are very weak, if you were to go out and purchase one of those right now you're probably going to be 40-45% behind what the true market value was two years ago.
